

NOTICE

BUYER'S BEWARE

Lloyd's RV Center is very proud of our parts and service departments. When we sell you a RV, we perform a PDI or a Pre Delivery Inspection. This is a factory required check of all of the systems to ensure they are properly working. This PDI ensures that the dealer you have purchased your RV from has performed the factory requirements to complete the warranty and pre delivery process.

In order to complete the PDI, the dealer needs to have a qualified and licensed L.P. gas technician. If the dealer does not have a qualified and licensed L.P. gas technician, the PDI can not be performed according to the manufacturer's specifications. It is a requirement of the State of Texas for **ALL** technicians who work with L.P. gas be licensed. At Lloyd's RV Center, all of our PDI technicians have their L.P. licenses and are able to perform the PDI to the manufacturer's specifications.

The manufacturer required PDI form is then signed by the franchised dealer who sold you your new RV. All franchised dealers are required to perform the PDI process on all new RV's at the time of sales. Lloyd's RV Center also performs a PDI on all pre-owned RV's as well.

We do not contract out our service work.
